

ENERGY STAR PACKAGE

Customer benefits

Making your home more energy efficient with ENERGY STAR can help to reduce high energy bills, improve comfort and help to protect the environment. Improving energy efficiency is also an important first step for homeowners interested in going green.

Standard ENERGY STAR features you will find in every CaraCo home include:

- ENERGY STAR furnace
- Hot water tank power vent
- ENERGY STAR windows

Upgrades to make your home ENERGY STAR certified include:

- Main duct sealed
- ENERGY STAR HRV
- ENERGY STAR thermostat
- Attic insulation upgraded to R50
- Air tightness test by independent consultant

The ENERGY STAR® for New Homes initiative promotes energy efficiency guidelines that enable new homes to be approximately 25 percent more energy efficient than those built to minimum provincial building codes. The increased efficiency of these homes translates into reduced energy costs for homeowners.

Energy efficient choices can save families about a third on their energy bill with similar savings of greenhouse gas emissions, without sacrificing features, style or comfort.

Estimated value is \$5000, subject to quote

To find out more about ENERGY STAR visit <http://oee.nrcan.gc.ca>

Changes and upgrades are subject to review for compatibility with the ENERGY STAR standards. Air conditioning, window area, windows in basement, doors and specialty windows are subject to review for conformance with ENERGY STAR standards. Fluorescent light bulbs, in lieu of incandescent light bulbs, will be installed in areas of the home in accordance with ENERGY STAR electrical requirements. Quantities vary. Information is subject to change without notice. Subject to errors and omissions excepted.
